
Math Homework Policy

Ms. Jechorek's Classes

Math homework will be passed out on Friday and is due the following Friday.

Students are NOT required to work on their homework over the weekend. Some parents like that this gives their child a full 7 days to complete their assignment. Working on homework over the weekend is a family decision.

Students are allowed and encouraged to turn their homework in early. If they get it to me by Wednesday, I will give them a free check and then allow them to make corrections to increase their grade. If it is turned in on Thursday, I will try, but cannot guarantee, to get it checked so they can turn it in corrected on Friday.

All homework is expected to be complete when the students arrive at school on Friday morning. Please encourage your child to start working on it early in case they have questions.

REWARDS: Students that **choose** to complete their homework over the weekend and turn it in on Monday will earn \$10 in classroom money as a bonus for going above and beyond. All students turning in by Wednesday will receive \$5 in classroom money.

Be aware that if school is closed on Friday, homework will be passed out on the last day of that week. Also, if we are out of school on Friday, homework will be due on Thursday.

Calallen Grading Policy
