

Calallen ISD Fall 2020 Instructional Commitment

For the 2020-2021 school year, Calallen ISD will require that parents select an instructional model for their student. Students will either attend school in a traditional face-to-face (F2F) model, or attend the Calallen ISD Virtual School. We want families to be confident in their decision, and have developed materials to assist in making a decision that is right for your student and your family. Materials and information are available on the [Calallen ISD website](#).

Parents/guardians are required to commit to an instructional model for the first six weeks of school. After the first six weeks, parents/guardians may elect to change the mode of instruction at each progress reporting period (every three weeks), as long as two weeks advanced notice is provided to the campus.

Due to the current state of COVID-19, Calallen ISD has adopted a school calendar that will not support face-to-face instruction until September 8th. Therefore, all students will participate in the Calallen Virtual School from August 19th through September 4th. Beginning September 8th, only students who have selected the face-to-face option will begin transitioning into school buildings.

In order to indicate student preference, all parents must log into [Skyward Family Access](#) and indicate their preference by Sunday, August 9th at 7 pm. Parents must complete this process for each of their students. The Fall 2020 Instructional Commitment form is located under **ONLINE FORMS** in Family Access.

Thank you,

Calallen Administration
