

**BAD WEATHER  
STUDENT DROP-OFF**

In the event of bad weather during student drop-off, the following procedures will be followed:

***Cars will enter the parking lot by the North entrance, drive straight through, turn and drive back toward the exits.*** Staff members will assist students out of cars if necessary. Please continue to pull through to the first door if there are not any cars ahead of you. Do not stop at the second door - this will cause traffic to back up.

When exiting, please follow the arrows on the map and go through the front parking lot. ***Please do not exit through the front entrance.***

Please be patient and cooperative as we do our best to get our students in safely.
